TWIN TOWERS DEVELOPMENT IN PIONEER SQUARE

\$200M

Seattle, WA

- Managed the construction of a 600,000 SF development in Seattle's Pioneer Square, including two concrete towers: a 23-story Embassy Suites hotel and an 18-story office tower/parking garage connected by a 10-story glass atrium.
- Coordinated complex logistics and sequencing for high-rise construction, ensuring adherence to aggressive timelines and budget constraints.

High-Rise Construction

Hospitality

Hyatt Place Hotel & Apartments

HOTEL AND APARTMENTS COMPLETED TWO MONTHS EARLY

\$40M

Seattle, WA

- Spearheaded mid-project implementation of the Last Planner System, creating aggressive and efficient construction schedules; achieved substantial completion two months early.
- Implemented 25 Construction Change Directives in the final four months, successfully negotiating over \$4M in late changes to project scope while maintaining project momentum.
- Fostered a culture of trust and collaboration with the owner/client by consistently demonstrating advocacy, fairness, diligence, and transparency throughout a challenging project.

Seismic Retrofit

Award-Winning Projects

Barton Senior Residences

\$12M

SENIOR RESIDENCE PROJECT COMPLETED 15% FASTER *Chicago, IL*

- Led a project-specific Lean Construction initiative, collaborating closely with key trades to develop an aggressive and achievable project schedule using the Last Planner System.
- Achieved nearly 10% budget savings through diligent and timely buyout negotiations and contract execution.

Healthcare Facilities Lean Construction Scheduling

Temple Lofts

\$25M

HISTORIC TEMPLE CONVERTED INTO LUXURY LOFTS *Los Angeles, CA*

- Managed the seismic retrofit and complete renovation of a historic Masonic Temple in downtown Long Beach, converting it into luxury loft apartments.
- Preserved historical elements while integrating modern amenities, resulting in high tenant satisfaction and occupancy rates.
- Navigated complex regulatory requirements for historic buildings, securing necessary approvals without project delays.

Historic Renovation Seismic Retrofit
Multi-Family Housing

Quail Park of Lynnwood Expansion

\$35M

EXPANSION OF SENIOR LIVING FACILITY *Seattle, WA*

- Managed a large 3-story addition to an existing and fully operational assisted living/memory care facility, ensuring minimal disruption to residents.
- Added 14 independent cottage-style duplex residences, along with associated sitework and utility scope.
- Coordinated closely with facility management to maintain safety and operational efficiency throughout construction.

Senior Living Facility Expansion Project Coordination

Luxury Residential Projects

\$15M

MULTIPLE PROJECTS *Seattle & Bahamas*

- Managed major remodels of historic homes in Seattle, including projects in The Highlands and Laurelhurst neighborhoods.
- Coordinated construction of a custom apartment home on the 57th floor of a new Seattle high-rise. The client combined three units to create a unique and expansive space.

Successfully integrated custom luxury residential design elements and materials into the building's mechanical and structural systems, presenting a notable yet satisfying challenge.

- Built several high-end beach vacation homes at Bakers Bay, an exclusive private development in the Bahamas. Interesting logistical challenges related to this international, rural island location included material procurement, workforce availability, and schedule management.
